This instrument is especially designed for the

DR SACE'S CATARRH REMEDY.

It is the only form of instrument yet invented

with which fluid medicine can be carried high up

and perfectly applied to all parts of the affected na-ral passages, and the chambers or cavities com-municating therewith, in which sores and alcera

frequently exist, and from which the catarrhal dis-

charge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely

from the impossibility of applying remedies to these cavities and chambers by any of the ordi-nary methods. This obstacle in the way of ef-

fecting cures is entirely overcome by the invention

of the Douche. In using this instrument, the Fluid

is carried by its own weight, (no snulling, forcing or numping being required,) up one nostril in a full gently flowing stream to the highest portion of the

hasal passages, passes into and thoroughly cleans-es all the tubes and chambers connected therewith,

and flows out of the opposite nostril. Itsuse is pleas

ant and so simple that a child can understand.

be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Bouche, and accompanied with the constitutional treatment which is recommended in the pamphiet

or a case he can not cure. The Remedy is mild

and plea-ant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Donche at 60 cents by all Drug-
